

CompleteVue™

**Transform Insights into Impact with Price Transparency
Analytics & Support**

With more than 80% of rural America underserved, rural hospital systems and providers face increasing market pressures to optimize their operations. To meet these challenges, healthcare providers need powerful analytics capabilities to transform complex data into clear, actionable insights to drive measurable financial improvements.

Your expert partner in leveraging technology, public data, and data science to drive measurable financial improvements.

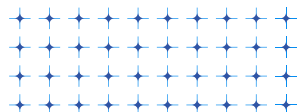

At Claritev, we empower providers to improve pricing strategies, identify revenue opportunities, and optimize contract rate management through data-driven insights derived from our modern pricing analytics solution, CompleteVue. Combined with industry-leading data science and analytic support services, providers will discover the confidence to take action, driving positive outcomes like never before.

Analytics Support Services Can Help You:

- **DRIVE FINANCIAL PERFORMANCE:**
Transform contract analysis and rate management into optimized terms and improved revenue capture.
- **ENHANCE MARKET POSITION:**
Leverage in-depth benchmarking and analytics to strengthen competitive positioning in your service area.
- **MAXIMIZE REVENUE OPPORTUNITIES & STREAMLINE OPERATIONS:**
Identify and capture untapped potential through strategic service line optimization and population health analytics through data-driven decision making.

CompleteVue's actionable insights are based on more than 500 billion records of public pricing data across 150+ payors.

1 Rural Health 101 – National Rural Health Association
All data within CompleteVue™ is based on publicly available price transparency machine readable files, Medicare rates, and third-party benchmark data.

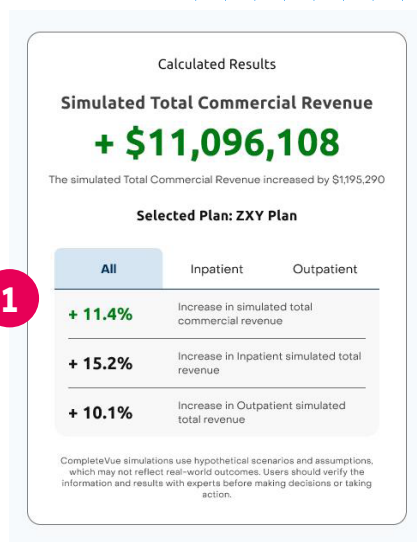

Clarity and Insights to Power Your Performance with Precision

CompleteVue powers your performance with precision through three key capabilities.

1 REVENUE IMPACT SIMULATOR:

Revenue Impact Simulator helps gauge market position by testing out multiple “what-if” scenarios with your actual utilization data. Identify revenue optimization opportunities and accelerate strategic planning with sophisticated modeling that projects financial outcomes across different pricing scenarios.

1

2 DATA EXPLORATION FOR STRATEGIC MARKET INTELLIGENCE:

Strengthen your competitive position by easily locating providers with similar services within a customizable radius for comprehensive benchmarking. Gain insight with multi-payor rate benchmarking at the code level.
